- Drain Commissioner comments, if applicable
- Road Commission comments, if applicable
- Open space provisions
- Fencing and screening
- Relationship to adjacent properties land use, density, street and utility extensions, privacy, property values
- Phasing plan for project

PROCEDURE: when the completed application is filed, the Township Clerk shall transmit it to the Chairman of the Planning Commission, who shall place it on the agenda of the Planning Commission and cause written notice to be given to the applicant of the date, time and place when the application will be reviewed. The applicant shall be given the opportunity to appear before the Planning Commission at the time, date and place stated in the notice to present his plan and discuss it with the Commission.

STANDARDS FOR SITE PLAN REVIEW: In reviewing the detailed site plan, the Planning Commission shall ascertain whether the proposed site plan is consistent with all regulations of this Zoning Ordinance. Further, in consideration of each site plan, the Planning Commission shall endeavor to insure the following.

The proper development of roads, easements and public utilities has been provided to protect the general health, safety and welfare of the Township including the following.

All drives and parking areas to be surfaced with bituminous or concrete paving or equivalent.

All public roads and streets shall be equal to County Road Commission standards of construction and drainage.

All roads and streets, drives and parking areas shall provide for disposal of surface water into the ground, into an approved leaching basin, or into a storm sewer.

Roads, streets and parking areas may be required to provide artificial lighting automatically timed and providing a minimum of one watt per twenty (20) square feet of road or parking surface with all light sources shielded from adjacent residential windows.

There is a proper relationship between major thoroughfares and proposed service drives, driveways and parking areas so to insure the safety and convenience of pedestrian and vehicular traffic.

The adverse effects resulting from the locations of buildings and accessory structures will be minimized to the occupants of the subject parcel and the occupants of adjacent properties.

The proposed use will not have a harmful effect on the surrounding neighborhood development. Provisions for fencing, walls and landscaping devices may be required to provide screening from adjacent land.

That the proposed use is consistent with and promotes the intent and purposes of this Ordinance, and is compatible with the natural environment and the capacities of public services and facilities affected by the proposed use.
